CAREER TECH MANAGEMENT MADE EASY

About CTE MANAGER

CTE MANAGER is an online system created for schools and districts to track student engagement in professional development, classroom/lab instruction, and experiential learning projects. CTE MANAGER provides teachers and district administrators with valuable reports for assessing student learning, promoting their program(s), and garnering community support for career and technical education. For students, CTE MANAGER offers helpful tools such as a professional portfolio, resume builder and standards-based journaling to make documenting their successes and planning their future easier.

Step 4: Log In & Get Started!

Log Into CTE MANAGER & Get Started

For CTE Administrators:

1) Setup ALL Schools In Your District

Complete all fields, including contact info and career clusters/programs offered.

2) Create User Accounts

Add teacher accounts, and assign Account Roles to their profile. If applicable, designate additional CTE Director and Assistant accounts on the "District Admins" screen.

3) Encourage District-Wide Use and Generate Reports

CTE MANAGER features and reports are most valuable to District Admins and Educators when ALL CTE Programs (career clusters) at ALL schools regularly interact with and keep records in the system.

If you have any questions about generating specific datasets from CTE Manager, contact us at Info@CTEManager.com

For CTE Teachers:

1) Setup Your CTE Courses

Create CTE courses you teach and add curriculum standards to your course.

2) Add Students

Complete the required fields under "Directory > Set Access Code." CTE Manager will auto-generate login instructions that will guide students through the setup process.
